Ankit Maurya

+91 801-007-8449 — ankit.fsdev@gmail — Portfolio — linkedin/ankitmaurya — github/ankitmaurya

TECHNICAL SKILLS

- **Languages** : JavaScript, TypeScript, Node.js (Runtime Environment), Golang, Java, Python

- **Frontend Technologies** : React.js, Next.js, Redux, D3.js (Data Visualization)

- **Databases** : PostgreSQL, MongoDB, MySQL, Redis

- **Other Skills** : **Problem-solving, Data Structures and Algorithms, 200+ LeetCode problems**, Docker, Kubernetes, Firebase, Automation (Puppeteer), Git, GitHub, REST APIs, Sequelize ORM, Web Scraping (Cheerio), React Query, React Formik, Nodejs Cluster.

EXPERIENCE

DataMingle Analytics   Remote
Full Stack Developer   August 2024 - Present

- Developed a full-fledged website from scratch using **React**, **Node.js**, **PostgreSQL**, and **Sequelize ORM**.

- Integrated **D3.js** for data visualization to enhance user experience with dynamic and **interactive data representation**.

- Implemented secure **JWT authentication** to protect user data and provide seamless login functionality.

- Optimized application performance using **React Query**, **Node.js cache**, reusable **custom hooks**, and deep knowledge of React component lifecycle to **enhance function efficiency**.

PROJECTS

Recipe Web App | *React, Redux, Firebase*   View Project

- Developed a **responsive** recipe web app showcasing 1000+ recipes, featuring **advanced search** and personalized profiles.

- Integrated Firebase for **real-time data syncing** and **user authentication**.

- Implemented dynamic filtering and pagination for improved usability.

E-commerce Website | *MERN (MongoDB, Express, React, Node.js), Redux, Stripe*   View Project

- Built an e-commerce site managing 1000+ products and users with a **responsive UI**.

- Implemented shopping cart, **advanced search** with multiple filter access, and secure **user authentication** with **Redux** and **JWT**.

- Integrated **Stripe** for payment processing, and **NodeMailer** for automated email notifications.

- Added **order history** feature to allow users to track past purchases.

- Developed functionality for users to **comment**, **update**, and **delete** product reviews.

- Implemented **product management features**, allowing admins to add, update, and delete products with ease.

Movie App | *React, Redux, TailwindCSS*   View Project

- Built a movie app providing **real-time access** to 2000+ movies using **TheMoviesDatabase API**.

- Optimized **genre-based search functionality** to enhance user engagement.

- Implemented smooth navigation using **React Router** for better user experience.

Education

B.Sc. in Computer Science, Vartak College, Mumbai	2022 - 2025	**CGPA:** 7.0
HSC (Higher Secondary Certificate)	2022	**Score:** 78
SSC (Secondary School Certificate)	2020	**Score:** 80

Additional Involvements

- Actively involved in freelancing, helping students with **data structure** and **algorithm doubts** through WhatsApp groups and Telegram channels.

- Continuously exploring platforms like **Reddit** and **Medium.com** to stay updated with the latest trends in the market and new technologies.

- Utilize AI tools like **GitHub Copilot**, **Cody AI**, **ChatGPT**, and **Claude** to boost performance.

- For research, use **Prepexplicity** to stay ahead in various topics.

- Committed to the programming field, currently exploring **open-source contributions**.
